Epsilon Direct Lending Fund Launch

Specialist Australian middle market direct lending fund manager, Epsilon Direct Lending Pty Ltd (“Epsilon”), is delighted to announce that the Epsilon Direct Lending Fund (the “Fund”) is now launched after a successful foundation offer.

Investor demand for stable and reliable income continues to be strong, with the Fund providing wholesale investors with access to the market opportunity in direct corporate lending to performing middle market companies with strong market positions, proven management teams and robust financial histories.

Epsilon thanks the foundation investors for supporting the initial close and backing the team. Foundation investors comprise a range of prominent private wealth advisory firms, multi-family offices, fund-of-funds and high-net-worth investors.

Epsilon has a strong pipeline of lending opportunities to help finance some of Australia’s highest quality companies and private equity investors, as they seek funding for growth and event-driven purposes. The team has also expanded to accommodate the funding demand.

The Fund appeals to conservative, wholesale investors seeking risk-adjusted returns, recurring income, capital preservation and low correlation to other asset classes from a portfolio of individually structured and documented, primarily senior secured floating rate loans to high quality, credit-worthy Australian and New Zealand middle market companies. The Fund does not invest in property related financings. The Fund objectives are targets only and are not guaranteed.

The Fund is open for applications on a monthly basis. The Fund is also available to wholesale investors on the Macquarie Wrap, Netwealth and Powerwrap investment platforms.
